

SAYAN BHATTACHARJEE

Senior Full Stack / Lead Software Engineer

Kolkata, India | sayan1997tolly@gmail.com | +91-8017588460 | [LinkedIn](#) | [Github](#)

PROFESSIONAL SUMMARY

Lead-oriented Senior Software Engineer with 7 years of experience designing, developing, and modernizing enterprise-scale cloud-native applications. Strong expertise in Java, Spring Boot, Microservices, AWS, Kafka, Angular, Docker, Kubernetes, and CI/CD practices. Proven experience leading cross-functional teams, mentoring engineers, driving cloud migration initiatives, and delivering scalable distributed systems.

CORE SKILLS

Backend Technologies: Java 21/17/8, Spring Boot, REST APIs, Microservices Architecture, Hibernate, JPA, Event-Driven Architecture, Kafka

Frontend Technologies: Angular, TypeScript, JavaScript, HTML5, CSS3

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, CI/CD Pipelines, Maven

Databases: Oracle, MongoDB, SQL, PL/SQL

Monitoring & Observability: Splunk, ELK Stack, Prometheus, Grafana, Dynatrace

Engineering Practices: System Design, Distributed Systems, Cloud-Native Development, Design Patterns, Agile Methodologies, Technical Leadership, Code Reviews, Mentoring

AI & Productivity: GitHub Copilot, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Senior Associate / PwC / June 2026 – Present

- **Own and manage** multiple Java Spring Boot microservices hosted on AWS supporting critical enterprise reporting and business workflows.
- **Drive technical solution** discussions and collaborate with architects, product teams, and stakeholders to deliver scalable cloud-native solutions.
- **Contribute to engineering** best practices, code quality initiatives, observability improvements, and operational excellence.
- **Mentor team members** and support technical decision-making across projects.

Senior Full Stack Developer / TCS / January 2022 – May 2026

- Participated in architecture reviews and solution design discussions and **led large-scale application modernization** and migration initiatives from on-premise environments to AWS cloud infrastructure.
- **Designed and developed** scalable Java Spring Boot **microservices** supporting enterprise vehicle leasing platforms integrated with over 100 downstream applications.
- **Built and maintained RESTful APIs** enabling seamless communication across distributed systems and enterprise integrations.
- **Implemented event-driven integration** patterns leveraging Kafka for reliable asynchronous communication between services.
- **Improved platform reliability** and **reduced downtime** by designing resilient and scalable cloud-native architectures.
- Delivered **Angular-based frontend** enhancements **improving** application performance, **user experience**, and accessibility.
- **Collaborated** with product managers, architects, QA teams, and business stakeholders.
- Provided **technical leadership** and **mentoring** for a team of junior engineers through code reviews, design

discussions, and knowledge-sharing sessions.

- Contributed to CI/CD pipeline improvements using **Jenkins**, **Docker**, and **Kubernetes**.
- Played leadership responsibilities as **Team Lead** and Scrum Master backup.

Backend Analyst / Cognizant / July 2019 – December 2021

- **Analyzed** enterprise application **performance bottlenecks** and implemented **backend optimizations** improving overall system efficiency by 40%.
- **Collaborated** directly with **global clients** to gather requirements and transform business needs into scalable technical solutions.
- **Supported** development and **maintenance** of enterprise backend applications while adhering to strict SLA commitments.

EDUCATION

Bachelor of Technology (B.Tech), MAKAUT, CGPA: 8.82

ACHIEVEMENTS

- Recognized by TCS leadership for delivering high-quality enterprise solutions and exceptional client support.
- Appreciated by clients for technical excellence, ownership, and stakeholder management.
- Successfully led cloud migration and modernization initiatives.
- Mentored junior engineers and contributed to a collaborative engineering culture.
